

6th Feb. 2024

To whom it may concern,

Statement

Concerning

Absence of nanomaterials

To the best of our knowledge of the manufacturing processes and the types of raw materials used, we confirm that nanomaterials are neither intentionally used to produce MOWITAL® B, MOWITAL® BA, MOWITAL® G AND MOWITAL® SB nor added after the manufacturing processes. In addition, nanomaterials are not handled in the production plant of our MOWITAL® product line.

The definition of nanomaterials for the following regulations:

- COMMISSION RECOMMENDATION of 10 June 2022 on the definition of nanomaterial (2022/C 229/01)
- French Décret n° 2012-232 of 17th February 2012
- Belgian Royal Decree of 27th May 2014 and its amendment
- Danish Statutory Order no. 644 of 13th June 2014
- Swedish regulation on chemical products KIFS 2017:7 and its amendment
- Chemical Ordinance of Switzerland SR 813.11 and its amendment

Kuraray Europe GmbH makes no warranties, express or implied, and assumes no liability in connection with any use of this information. Above information is intended to support Kuraray customers in fulfilling their regulatory obligations and requirements. The final verification of finished product compliance with migration limits and other applicable requirements of the regulations is the responsibility of the finished product manufacturers considering their specific intended use.
